

Personal Care Policy

1. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans.
- The dignity, rights and well-being of children are safeguarded.
- Pupils with intimate care difficulties are not discriminated against, in line with the Equalities Act 2010.
- Parents are assured that staff are knowledgeable about intimate care and that the needs of their children are taken into account.
- Staff carrying out intimate care work, do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved.

Intimate care refers to any care which involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with [statutory safeguarding guidance](#).

3. Role of parents

3.1 Seeking parental permission

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the permission form (if used), an intimate care plan will be created in discussion with parents/carers (see section 3.2 below).

Where there isn't an intimate care plan or parental consent for routine care in place, parental/carers permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (when possible) and any other relevant professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

See appendix 1 for a blank template plan to see what this will cover.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

Any roles who may carry out intimate care will have this set out in their job description. This includes:

- Senior Leaders
- Teachers
- Teaching Assistants
- Support workers employed by the school

No other staff members can be required to provide intimate care.

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

4.2 How staff will be trained

Staff will receive:

- Training in the specific types of intimate care they undertake, where necessary.
- Regular safeguarding training.
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as is possible.

They will be familiar with:

- The control measures set out in risk assessments carried out by the school.
- Hygiene and health and safety procedures.

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

5.1 How procedures will happen

Here at the Fitzroy Academy it is best practice to ensure there are two staff present when providing personal care, however we understand that this may not always be possible. Where there are two staff present, then one member of staff will be supporting the young person and the other will remain present. This is to ensure best practice regarding health and safety and safeguarding. However, where there is only one person, then ideally this should be someone of the same sex where possible, but we realize that this may not always be the case. It is fine for female staff to change male young people and vice versa as all staff have an enhanced DBS. In order to ensure personal safety against allegations, staff should keep bathroom door ajar whenever appropriate, whilst maintaining a pupil's dignity. The door must remain ajar whilst still maintaining the young person's dignity. If there is a history of false allegations then two staff members must be present.

In the event that there is no capacity for 2 staff to be present then a single member of staff can support a young person with personal care to ensure they are receiving appropriate level of care in line with the *Health and Social Care Act 2008 (Regulated Activities) Regulations 2014: Regulation 9*.

All staff will have an enhanced DBS with a barred list check.

All staff undertaking personal care are to note this in the personal care log in the classroom of the pupil. In this log, staff must add actions taken and note any incidents.

All personal care will be carried out within the toilets within the school or public bathrooms when offsite. When off-site, staff must use disabled toilets for carrying out personal care.

When carrying out procedures, the school will provide staff with:

- Protective gloves and aprons
- Cleaning supplies

- Suitable bins for disposal

For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, underwear and/or a spare set of clothing.

Any soiled clothing will be contained securely, clearly labelled, and discreetly returned to parents/carers at the end of the school day.

5.2 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the Head Teacher/DSL on site.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

6. Monitoring arrangements

This policy will be reviewed by the Head Teacher, every 12 months or sooner if necessary. At every review, the policy will be approved by Directors.

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEN
- Supporting pupils with medical conditions

Appendix 1: Template Intimate Care Plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer
